

The Greater Moncton Sewerage Commission has been invited to be one of a select group of speakers and lecturers at the International conference on biosolids in Trondheim, Norway

Tuesday, April 15, 2003

The Greater Moncton Sewerage Commission has been invited to be one of a select group of speakers and lecturers at the International conference on biosolids. This conference, organized by the International Water Association, will be held in June at the Norwegian University of Science and Technology in Trondheim, Norway. The GMSC presentation will be entitled "Integrated, long term sustainable, cost effective biosolids management at a large canadian wastewater treatment facility".
