Upgrade and Modernization Project Update

The WWTF Upgrade and Modernization Project is complete! The UV system will be commissioned and hydroseeding on site will happen in spring 2023. The Project was delivered on time to meet the federal effluent regulations for Total Suspended Solids and Carbonaceous Biochemical Oxygen Demand and came under the \$90.4 million budget. This is a great accomplishment by the Commission that serves its ratepayers.

TransAqua's new Class 4 WWT Operator!

Peter Brown, CET achieved his Class 4 Wastewater Treatment Operator certification, the highest in Canada! Peter has been with the Commission since 1993. Peter is the Operations Manager responsible for ensuring the effective and efficient management of the wastewater collection, conveyance and treatment and the composting processes.

Win your 2022 Water and Sewer Bill up to \$1,000

Ratepayers were invited to submit a ballot for a chance to win their 2022 Water and Sewer Bill up to \$1,000. TransAqua had the ballot box at numerous public events and many ballots were submitted online at www.transaqua.ca. TransAqua drew 2 ballots in 2022 for the lucky winners!

Congratulations to Sue Arsenault from the Town of Riverview

and Jennifer Basque from the City of Moncton whose ballots were drawn and contained the correct answers.

Good luck to all contestants for the 2023 contest.
