TransAqua announces 2024 compost toilet opening

RIVERVIEW, N.B. – TransAqua, the Greater Moncton Wastewater Commission, announced today that its 2024 compost toilets at various locations along the Petitcodiac River are open.

It is necessary for the ground to be dry before a heavy vacuum truck can be used to remove water from the toilet basins to minimize damage to the grass and trail. Runoff water seeps into the toilet tubs and freezes into a big block of ice over winter and spring that must melt.

Please sign up to receive updates and information from TransAqua at www.transaqua.ca. Residents may also contact TransAqua at 506-387-7977.

TransAqua, the Greater Moncton Wastewater Commission, (www.transaqua.ca) was established in 1983 to support the wastewater collection and treatment needs of the Dieppe, Moncton and Riverview tri-community. Since then, it has developed a 31 kilometre collection network and a treatment facility to best deliver on this mandate. It has also become a leader in the reuse of biosolids through the generation of high quality compost as opposed to disposal in a landfill site.
